Key Business Metrics and Non-U.S. GAAP Financial Measure

We use the following metrics to evaluate our performance, identify trends, formulate financial projections, and make strategic decisions. We believe these metrics provide useful information to investors and others in understanding and evaluating our results of operations in the same manner as management.

The following table summarizes our key business metrics and non-U.S. GAAP financial measure for the three months and years ended December 31, 2025 and 2024 (in thousands):

	Three Months Ended December 31,		Years Ended December 31,	
	2025	2024	2025	2024
Marketplace GOV ⁽¹⁾	\$ 580,587	\$ 994,377	\$ 2,704,573	\$ 3,892,645
Marketplace orders ⁽²⁾	1,766	2,613	8,336	11,556
Resale orders ⁽³⁾	111	115	428	431
Adjusted EBITDA ⁽⁴⁾	\$ 840	\$ 34,243	\$ 41,822	\$ 151,419

(1) Marketplace Gross Order Value (“Marketplace GOV”) represents the total transactional amount of Marketplace orders processed on our online platform during a period, inclusive of fees, exclusive of taxes, and net of event cancellations. During the three months and year ended December 31, 2025, event cancellations negatively impacted Marketplace GOV by \$13.5 million and \$60.7 million, respectively, compared to \$21.1 million and \$95.9 million during the three months and year ended December 31, 2024, respectively.

(2) Marketplace orders represent the total volume of Marketplace segment transactions processed on our online platform during a period, net of event cancellations. During the three months and year ended December 31, 2025, our Marketplace segment experienced 34,307 and 163,919 event cancellations, respectively, compared to 43,019 and 222,472 event cancellations during the three months and year ended December 31, 2024, respectively.

(3) Resale orders represent the total volume of Resale segment transactions processed on a given platform (including our own) during a period, net of event cancellations. During the three months and year ended December 31, 2025, our Resale segment experienced 943 and 4,702 event cancellations, respectively, compared to 792 and 5,286 event cancellations during the three months and year ended December 31, 2024, respectively.

(4) Adjusted EBITDA is a financial measure not defined under accounting principles generally accepted in the United States of America (“U.S. GAAP”). We believe adjusted EBITDA provides useful information to investors and others in understanding and evaluating our results of operations and serves as a useful measure for making period-to-period comparisons of our business performance. See “Adjusted EBITDA” below for more information, including a reconciliation of adjusted EBITDA to net income (loss), the most directly comparable U.S. GAAP financial measure.

Financial Outlook for Full Year 2026

For the year ending December 31, 2026, Vivid Seats anticipates:

- Marketplace GOV in the range of \$2.2 billion to \$2.6 billion
- Adjusted EBITDA in the range of \$30.0 million to \$40.0 million*

Financial Outlook for Q1 2026

For the quarter ending March 31, 2026, Vivid Seats anticipates:

- Marketplace GOV in the range of \$570.0 million to \$620.0 million
- Adjusted EBITDA in the range of \$8.0 million to \$10.0 million*
- Cash balance of \$125.0 million to \$135.0 million

* We calculate forward-looking adjusted EBITDA based on internal forecasts that omit certain information that would be included in forward-looking net income (loss), the most directly comparable U.S. GAAP financial measure. We do not attempt to provide a reconciliation of forward-looking adjusted EBITDA to forward-looking net income (loss) because the timing and/or probable significance of certain excluded items that have not yet occurred and are outside of our control is inherently uncertain and unavailable without unreasonable efforts. Such items could have a significant and unpredictable impact on our future U.S. GAAP financial results.

Adjusted EBITDA

We present adjusted EBITDA, which is a non-U.S. GAAP financial measure, because it is a key measure used by analysts, investors, and others to evaluate companies in our industry. Adjusted EBITDA is also used by management to make operating decisions, including those related to analyzing operating expenses, evaluating performance, and performing strategic planning and annual budgeting.

We believe adjusted EBITDA is useful for understanding, evaluating, and highlighting trends in our operating results and for making period-to-period comparisons of our business performance because it excludes the impact of items that are outside of our control and/or not reflective of ongoing performance related directly to the operation of our business.

Adjusted EBITDA is not based on any comprehensive set of accounting rules or principles and should not be considered a substitute for, or superior to, financial measures calculated in accordance with U.S. GAAP. Adjusted EBITDA does not reflect all amounts associated with our operating results as determined in accordance with U.S. GAAP and specifically excludes certain recurring costs such as income tax expense (benefit), interest expense – net, depreciation and amortization, sales tax liabilities, transaction costs, equity-based compensation, litigation, settlements, and related costs, change in fair value of the Intermediate Warrants (as defined below), loss on asset disposals, change in fair value of derivative asset, foreign currency loss (gain) – net, adjustment of liabilities under our former Tax Receivable Agreement (the “TRA”) entered into with the existing unitholders of Hoya Intermediate, LLC, loss on extinguishment of debt, impairment charges, and severance compensation. In addition, other companies may calculate adjusted EBITDA differently than we do, thereby limiting its usefulness as a comparative tool. We compensate for these limitations by providing specific information regarding the U.S. GAAP amounts that are excluded from our presentation of adjusted EBITDA.

The following table presents a reconciliation of adjusted EBITDA to net income (loss), the most directly comparable U.S. GAAP financial measure, for the three months and years ended December 31, 2025 and 2024 (in thousands):
